# Ketan More

+971 50 165 8693, +91 98 602 89599 | moreketan2002@gmail.com |
ketan-more-4247881ab | Google Scholar |
Abu Dhabi, UAE

## Education

- **Mohamed bin Zayed University of Artificial Intelligence** *August 2025 – April 2027*
  *Master of Science (Computer Vision)* Abu Dhabi, UAE
- **Dr. Babasaheb Ambedkar Technological University** *July 2020 – June 2024*
  *Bachelor of Technology (Artificial Intelligence)* Pune, India

## Experience

- **Lockheed Martin** *06/2026 – 08/2026*
  *Computer Vision Intern* Abu Dhabi, UAE
  - **Developed a procedure state recognition system** that automatically identifies and tracks aircraft assembly stages from visual data.
  - **Built real-time vision pipelines** for assembly monitoring, process verification, and **deviation detection** in aircraft manufacturing, where accuracy and reliability are critical.
- **Mohamed bin Zayed University of Artificial Intelligence** *07/2024 – 08/2025*
  *Research Associate* Abu Dhabi, UAE
  - **Engineered and co-authored LlamaV-o1** (arXiv: 2501.06186), an open-source multimodal reasoning model trained with multi-step curriculum learning, released on Hugging Face (**25K+ downloads**), with a step-level benchmark (VRC-Bench) to evaluate chain-of-thought quality (Findings of ACL 2025).
  - **Designed large-scale evaluation benchmarks** for multimodal LLMs spanning **100+ languages** across historical artifacts, videos, poetry, driving scenarios, and embodied reasoning, building rigorous, reproducible evaluation pipelines **(CVPR 2025).**
  - **Published at top-tier venues** including **CVPR 2025**, **ACL 2025** (Findings), and **EMNLP 2025**, on step-by-step reasoning and evaluation of multimodal foundation models.
- **LAWA.AI** *09/2024 – 07/2025*
  *AI Software Developer* Abu Dhabi, UAE
  - **Led an agentic AI trading assistant for Indian equities**, a full-stack app built for a finance firm and connected to its clients' **Zerodha Kite** accounts, letting the firm's finance experts pull client information and **execute trades** through a single chat interface.
  - **Built the agent layer with the OpenAI Agents SDK**, using tool-calling agents for client data retrieval and trade execution, and the web application with **Django** and **Tailwind CSS**.
  - **Brought client data into one place**, replacing scattered lookups with a natural-language workflow that made information faster to access and act on for the firm's experts.
  - **Designed and deployed** an end-to-end conversational AI platform that scrapes, indexes, and structures content from diverse websites to build domain-specific, production-ready chatbots.
  - **Engineered scalable retrieval and inference pipelines** using **Python**, **LLMs**, **vector databases**, and **RAG architectures**, supporting efficient knowledge ingestion, low-latency querying, and **multi-tenant** deployment.

## Skills

- **Programming Languages:** Python, JavaScript, SQL
- **AI & LLMs:** PyTorch, Hugging Face, OpenAI Agents SDK, LangGraph, LlamaIndex, RAG, Vector DBs
- **Data & ML:** NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib, Seaborn
- **Web & Databases:** Django, Flask, FastAPI, Tailwind CSS, Bootstrap, jQuery, PostgreSQL, SQLite
- **Tools & Integrations:** Git, GitHub, Docker, Heroku, DigitalOcean, Zerodha Kite

## Publications

P= Published

## Honors and Awards

- **Runner Up** *2024*
  *Smart India Hackathon*
  - **Designed and developed** a full-stack application for managing and tracking ships across multiple ports, enabling centralized oversight of port operations and vessel movements.
  - **Implemented** the application using **React**, **Django**, and **Google AllAuth**, supporting secure authentication and seamless user management.
- **Winner, Inter-College Web Development Competition** *2024*
  *Nutan College of Engineering and Research*
  - **Designed and developed** an Enterprise Resource Planning (ERP) system for academic operations, enabling centralized management of institutional workflows and resources.
  - **Deployed** the system using cloud services such as **Heroku** and **Salesforce**, supporting scalable hosting and integration with enterprise platforms.
- **Certificate of Appreciation** *2023*
  *Nutan College of Engineering and Research*
  - Received an award from the college for excellence in extracurricular activities.
